

First 7 days in Japan

Week one priorities: payments, trains, laundry, and a sustainable pace.

Days 1 to 2: land and stabilize

- ☐ Data working, cash on hand, IC card loaded, first hotel check-in complete.
- ☐ Eat simple, sleep on local time, one short walk to reset jet lag.
- ☐ Buy water, snacks, and trash bags at a conbini. Learn your block exits.

Days 3 to 4: move between cities

- ☐ Book Shinkansen or express seats early if holiday week. Luggage plan before platforms.
- ☐ Coin locker test with small bag first if you have never used one.
- ☐ Laundry day if you packed light. Hotel sink wash only as backup.

Days 5 to 7: depth without burnout

- ☐ One big sight per day, one slow block for food and shops.
- ☐ Revisit a station you rushed earlier. Confidence builds with repetition.
- ☐ Defer big shopping until you know baggage weight for the flight home.
