

Japan rainy season checklist

Tsuyu humidity, drying clothes, and backup plans when skies stay gray.

Shell and feet

- ☐ Breathable rain jacket beats a thick coat that never dries in hotel rooms.
- ☐ Shoes that drain or dry fast. Pack a second pair if you walk all day.
- ☐ Small umbrella for city blocks, but watch crowded station stairs.

Laundry reality

- ☐ Hotel rooms dry slowly in humidity. Coin laundry is faster than bathroom lines.
- ☐ Pack quick dry layers if you repeat outfits between wash days.
- ☐ A plastic bag for damp gear keeps the rest of the bag dry.

Indoor backup days

- ☐ Museums, department food halls, and short indoor walks save a soggy afternoon.
- ☐ Check last train earlier when weather slows transfers.
- ☐ Keep phone and cards in an inner pocket when rain hits hard.
